RG104 E-1 Box 193

RECEIVED
MAR 23 1896

Office of Assistant Treasurer U. S.,

Philadelphia, Pa., March 21, 1896.

Hon. Herman Kretz,

Superintendent U.S.Mint,

Philadelphia, Pa.

Sir:-

The enclosed five cent nickel coin is respectfully submitted for examination to ascertain if it is composed of three - fourths of copper and one - fourth of nickel, as provided by statute.

If the coin referred to is genuine it lacks the toughness that should characterize it and, on account of its brittleness, it seems to me, that its circulation is an encouragement to the issue of spurious coin.

Respectfully yours,

W. Bigler

Assistant Treasurer U.S.

NARA RG104, Entry 1, Box 193
